

## CABIN AIR FILTER - AXCAF-12157

TOYOTA CAMRY 2018-2021, RAV4 2019-2021, COROLLA 2019-2021

### TOOLS:

No tools required

### LOCATION OF CABIN AIR FILTER:

Behind the glove box or inside the glove box

### STEPS:

- 1). Lower the glove compartment by disconnecting the dampener arm and pushing in on both sides.
- 2). Unclip the cabin filter access door.
- 3). Remove filter and frame from housing.
- 4). Remove the old filter from the frame and insert the new filter into the frame.
- 5). Reinstall the filter and frame into housing.
- 6). Replace the cabin filter access door.
- 7). Swing the glove compartment back into position.
