

## CABIN AIR FILTER - AXCAF-10775

CHEVROLET CRUZE 2011-2016, TRAX 2013-2022, MALIBU 2013-2015

### LOCATION OF CABIN AIR FILTER:

Behind the glove box or inside the glove box

### STEPS:

- 1). Open the passenger side door. Remove the end cover located on the side of the instrument panel in the top right corner.
- 2). Remove the screw on the side of the glove box.
- 3). Open the glove box and remove the screws securing the glove box assembly.
- 4). Lower the loosened glove box assembly
- 5). Unplug both wire cables from the glove box.
- 6). Locate and remove the cabin filter door.
- 7). Remove dirty filter by pulling it straight out and replace it with new filter.
- 8). Reinstall the cabin filter door and secure it closed.
- 9). Plug in the wire cables that you removed earlier to the glove box.
- 10). Set the glove box assembly back in place and with the glove box open reinstall the screws.
- 11). Close glove box and reinstall the screw you removed from the side of the glove box.
- 12). Reinstall the end cover to the side of the instrument panel.
- 13). Swing the glove compartment back into position.
