

CABIN AIR FILTER REPLACEMENT

Recommended Replacement Interval: 15,000 miles under normal operating conditions.

2017 Hyundai Elantra

Installation Time: 15 min

Tools needed: None

Location: Behind the glove compartment

1. Open the glove box, locate the support rods on the right and left, and then disconnect the connectors holding it in place.
2. Once the stoppers are removed the glove box should hang freely and you should be able to locate the filter housing.
3. Remove the cap to the filter housing and slide out the old filter.
4. Replace old filter with new filter making sure the flow arrow is pointing in the correct direction.
5. Reassemble in reverse order.
